Full-Stack Development | Software Engineering | Web Development | UI Design

Highly motivated and results-oriented Full Stack Developer with 2+ years of experience building and maintaining web applications utilizing diverse front-end and back-end technologies. Proven ability to collaborate effectively, solve problems creatively, and deliver high-quality code under pressure. Eager to leverage skills and expertise to contribute to the growth and success of your organization.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Mehta Brothers, Lahore, Pakistan 09/2023 – Present

- Led the software development lifecycle for creating and launching "Insight" a web platform that provides an in-depth understanding of feed quality and its impact on livestock health and productivity.
- Utilized React, TypeScript and JavaScript to enhance both front-end and back-end functionalities, adhering to SCRUM best practices and spearheading effective release management.
- Designed and implemented a robust CI/CD pipeline to automate testing and streamline the release build process.
- Technology Used: React, Typescript, JavaScript, Firebase, Next Js, Docker, Python, Git, GCP

Frontend Developer | PITB, Lahore, Pakistan 05/2023 – 08/2023

- Developed "eFOAS," a web application enabling paperless office management.
- Technology Used: React, Typescript, JavaScript, Git

Web Developer | Hiroxim, Lahore, Pakistan 02/2022 – 04/2022

- Communicated effectively with all technical and non-technical partners and stakeholders to ensure a shared understanding of the new products and features under consideration.
- Partnered cross-functionally with user interface (UI) designers to establish mobile design best practices while executing quality assurance testing to resolve bugs and optimize performance.
- Technology Used: React, HTML, CSS, JavaScript, SQL, WordPress, Drupal
